## **CORRECTION -- Ashton construction traffic pattern changes today**

CORRECTION - This press release was sent with the wrong contact information. The correct contact is Justin Smith. We apologize for the error.

-----  
Please be aware that there will be a change in the current traffic pattern for the construction work at the Intersection of US-20 and SH-47 in Ashton, ID starting on Tuesday October 4, 2022.

US-20 traffic will be shifted to the East side of the road.

SH-47 will have periodic traffic control, but will generally have little construction activity.

E. 1300 N will be closed to US-20 traffic from October 4th to October 17th. Signs will detour local traffic onto N 3400 E.

All businesses on US-20 will remain open and signs will direct traffic.

US-20 and SH-47 will remain open to traffic in all directions.

Please watch for equipment and workmen, follow all traffic signs and flaggers, and reduce speeds to posted limits as traffic control and safety devices will be changing often to accommodate construction activities.

We appreciate your patience during this construction period. If you have any questions, please contact our office at (208) 523-6600.
